This article [Opt. Eng. 53(1), 013109 (2014)] was originally published on 3 February 2014 with Fig. 18 duplicated as Fig. 19. The missing Fig. 19 is reprinted below.

![Fig. 19 Illustration of the effect of large beam jitter with an rms value equal to 1/3 of the field-of-view (FOV). The peak positions remain unchanged but not the mutual peak amplitudes.](image-url)

The paper was corrected online on 7 February 2014. It appears correctly in print.
