

PROCEEDINGS OF SPIE

Window and Dome Technologies and Materials XIV

Brian J. Zelinski

Editor

21–22 April 2015

Baltimore, Maryland, United States

Sponsored and Published by
SPIE

Volume 9453

Proceedings of SPIE 0277-786X, V. 9453

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Window and Dome Technologies and Materials XIV, edited by Brian J. Zelinski, Proc. of SPIE
Vol. 9453, 945301 · © 2015 SPIE · CCC code: 0277-786X/15/\$18 · doi: 10.1117/12.2184313

Proc. of SPIE Vol. 9453 945301-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/15/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

v *Authors*
vii *Conference Committee*

SESSION 1 ADVANCES IN MID-WAVELENGTH INFRARED WINDOW TECHNOLOGY

- 9453 02 **Highly transparent spinel windows by microwave sintering** [9453-1]
- 9453 03 **Low-loss spinel windows for high-energy lasers** [9453-2]
- 9453 05 **20-inch diameter CHES® sapphire boules** [9453-4]
- 9453 06 **Conformal ALON® windows** [9453-5]
- 9453 07 **Scatter properties of polycrystalline YAG in the visible and near-infrared** [9453-6]

SESSION 2 WINDOW AND DOME TECHNOLOGY OVERVIEWS

- 9453 09 **A history of semi-active laser dome and window materials (Invited Paper)** [9453-8]
- 9453 0A **Weibull analysis and window lifetime prediction: a tutorial (Invited Paper)** [9453-9]

SESSION 3 METROLOGY AND FINISHING OF FLAT, FREE-FORM, AND CONFORMAL OPTICS

- 9453 0C **Development of manufacturing technologies for hard optical ceramic materials** [9453-11]
- 9453 0D **Form, figure, and thickness measurement of freeform and conformal optics with non-contact sensors** [9453-12]
- 9453 0E **Freeform optical manufacturing and testing processes for IR conformal window and domes** [9453-13]

SESSION 4 NOVEL PROCESSING AND APPLICATIONS OF OPTICAL WINDOWS, DOMES, AND COATINGS

- 9453 0K **Advances in multi-spectral Diamond-Like Carbon (DLC) coatings** [9453-19]
- 9453 0L **Simple optimization method for EMI mesh pattern design** [9453-20]
- 9453 0M **Stress measurement of EFG sapphire using Cr³⁺ piezospectroscopy** [9453-21]

SESSION 5 COMPUTATIONAL MODELING OF OPTICAL AND MECHANICAL PROPERTIES

- 9453 ON **Electronic-band structures and optical properties of transition metal doped Zinc oxide**
[9453-22]
- 9453 OO **Role of impactor properties on the computational simulation of particle impact damage in transparent ceramic windows** [9453-23]
- 9453 OP **Peridynamic simulation of the effects of coatings, substrate properties, incident angle, and tilt on sand impact damage in transparent ceramic windows** [9453-24]
- 9453 OR **Stress analysis of optical coatings for improved durability and performance of high-end optical components** [9453-26]
- 9453 OS **Laser-induced damage threshold prediction of dielectric enhanced mirrors at 1064 nm**
[9453-28]
- 9453 OT **Angle resolved backscatter of HfO₂/SiO₂ multilayer mirror at 1064 nm** [9453-29]

SESSION 6 2013 PERIDYNAMIC MODELING PAPER

- 9453 OV **Peridynamic modeling of damage and fracture in EM windows and domes** [9453-35]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Nils R. Sandell Jr., Strategic Technology Office, DARPA
(United States)

Symposium Co-chair

David A. Logan, BAE Systems (United States)

Conference Chair

Brian J. Zelinski, Raytheon Missile Systems (United States)

Conference Program Committee

Rick Gentilman, Raytheon Integrated Defense Systems
(United States)

Daniel C. Harris, Naval Air Warfare Center Weapons Division
(United States)

Brian K. Jones, U.S. Army Research, Development and Engineering
Command (United States)

John S. McCloy, Washington State University (United States)

Richard Porter, Air Force Research Laboratory (United States)

Michael E. Thomas, Johns Hopkins University Applied Physics
Laboratory (United States)

Randal W. Tustison, Consultant (United States)

Martin Winterling, UTC Aerospace Systems (United States)

Session Chairs

- 1 Advances in Mid-Wavelength Infrared Window Technology
Rick Gentilman, Raytheon Integrated Defense Systems (United States)
- 2 Window and Dome Technology Overviews
Brian J. Zelinski, Raytheon Missile Systems (United States)
- 3 Metrology and Finishing of Flat, Free-Form, and Conformal Optics
Daniel C. Harris, Naval Air Warfare Center Weapons Division
(United States)
- 4 Novel Processing and Applications of Optical Windows, Domes, and
Coatings
Michael E. Thomas, Johns Hopkins University Applied Physics
Laboratory (United States)
- 5 Computational Modeling of Optical and Mechanical Properties
John S. McCloy, Washington State University (United States)
