Volume 9325

Proceedings of SPIE, 1605-7422, V. 9325

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Design and Performance Validation of Phantoms Used in Conjunction with Optical Measurement of Tissue VII,
edited by David W. Allen, Jean-Pierre Bouchard, Proc. of SPIE Vol. 9325, 932501 · © 2015 SPIE
CCC code: 1605-7422/15/\$18 · doi: 10.1117/12.2192464

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

- v *Authors*
- vii *Conference Committee*

SESSION 1 PHANTOM DESIGN, CONSTRUCTION, AND MEASUREMENT

- 9325 04 **Measurement of the optical properties of solid biomedical phantoms at the National Institute of Standards and Technology** [9325-4]
- 9325 05 **Solid switchable phantom for diffuse optical imaging** [9325-5]
- 9325 06 **Fabrication of anatomically tapered foveal pits for retinal phantoms for optical coherence tomography** [9325-6]

SESSION 2 3D, MULTILAYERED, AND FUNCTIONAL PHANTOMS

- 9325 07 **Fabricating optical phantoms to simulate skin tissue properties and microvasculatures (Invited Paper)** [9325-7]
- 9325 08 **3D printed biomimetic vascular phantoms for assessment of hyperspectral imaging systems** [9325-8]
- 9325 0A **Optical tissue phantoms based on spin coating method** [9325-10]
- 9325 0B **Multilayered phantoms with tunable optical properties for a better understanding of light/tissue interactions** [9325-11]

SESSION 3 STANDARDS AND PHANTOMS IN BIOPHOTONICS: JOINT SESSION WITH CONFERENCES 9315 AND 9325

- 9325 0C **Making digital phantoms with spectral and spatial light modulators for quantitative applications of hyperspectral optical medical imaging devices** [9325-12]

SESSION 4 OPTICAL PROPERTIES AND CHARACTERIZATION OF PHANTOMS

- 9325 0D **Diffuse reflectance based inverse Monte Carlo model for the estimation of the dependent scattering of intralipid 20% using a simplified two fiber oblique geometry set up** [9325-14]
- 9325 0E **Diffuse photon density wave measurements in comparison with the Monte Carlo simulations** [9325-16]

POSTER SESSION

9325 0G **Effects of scattering and absorbing medium in the fluorescence conversion efficiency of physical tissue models** [9325-15]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

James G. Fujimoto, Massachusetts Institute of Technology
(United States)

R. Rox Anderson M.D., Wellman Center for Photomedicine,
Massachusetts General Hospital (United States) and Harvard
School of Medicine (United States)

Program Track Chair

Steven L. Jacques, Oregon Health & Science University
(United States)

Conference Chairs

David W. Allen, National Institute of Standards and Technology
(United States)

Jean-Pierre Bouchard, INO (Canada)

Conference Program Committee

Anant Agrawal, U.S. Food and Drug Administration (United States)

Gerald T. Fraser, National Institute of Standards and Technology
(United States)

Rongguang Liang, College of Optical Sciences, The University of
Arizona (United States)

Robert J. Nordstrom, National Cancer Institute (United States)

Ramesh Raghavachari, U.S. Food and Drug Administration
(United States)

Heidrun Wabnitz, Physikalisch-Technische Bundesanstalt (Germany)

Session Chairs

- 1 Phantom Design, Construction, and Measurement
David W. Allen, National Institute of Standards and Technology
(United States)
- 2 3D, Multilayered, and Functional Phantoms
Pascal Gallant, INO (Canada)

- 3 Standards and Phantoms in Biophotonics: Joint Session with
Conferences 9315 and 9325
David W. Allen, National Institute of Standards and Technology
(United States)
Rongguang Liang, College of Optical Sciences, The University of
Arizona (United States)
- 4 Optical Properties and Characterization of Phantoms
Pascal Gallant, INO (Canada)
