SPIE

Volume 11495

Proceedings of SPIE 0277-786X, V. 11495

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Nonimaging Optics: Efficient Design for Illumination and Solar Concentration XVII,
edited by Roland Winston, Eli Yablonovitch, Proc. of SPIE Vol. 11495, 1149501
© 2020 SPIE · CCC code: 0277-786X/20/\$21 · doi: 10.1117/12.2581607

Proc. of SPIE Vol. 11495 1149501-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Nonimaging Optics: Efficient Design for Illumination and Solar Concentration XVII*, edited by Roland Winston, Eli Yablonovitch, Proceedings of SPIE Vol. 11495 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ADVANCED DEVELOPMENTS

11495 06 **Advances in flowline simulations: virtual source computation method** [11495-4]

CONCENTRATOR DESIGNS

11495 08 **Computational method for optimizing segmented nonimaging concentrators** [11495-6]

11495 0A **Caustic surface produced by a simple lens considering a point source placed at arbitrary position along the optical axis** [11495-8]

ILLUMINATION

11495 0B **Freeform optics for dynamic illumination** [11495-9]

11495 0C **Designing compact and ultra-efficient aspherical lenses with prescribed irradiance properties for extended light sources** [11495-10]

NEW CONCEPTS

11495 0F **Reflector design and study via conformal mappings** [11495-13]

11495 0H **Analysis on optical efficiency for tiling polygonal luminescent waveguides** [11495-15]

11495 0I **Hamiltonian formulation of flowlines, first step for Wigner formalism analysis** [11495-16]

NUMERICAL AND FREEFORM METHODS

11495 0J **Freeform compound concentrators for indoor optical wireless communications** [11495-17]

11495 0L **Green's function formalism for nonimaging optics** [11495-19]

SOLAR APPLICATIONS

- 11495 0M **Progress in the development of two stage concentrated (53X) parabolic trough solar thermal collector** [11495-20]
- 11495 0N **Preliminary experimental results of a novel low cost solar thermal collector with integrated optics for desalination processes** [11495-21]
- 11495 0O **Low cost solar photovoltaic-thermal (PVT) collector using aluminum minichannels and nonimaging optics** [11495-22]
- 11495 0P **Novel volume holographic grating-based spectrum-splitting concentrator for hybrid solar system** [11495-23]
- 11495 0Q **Modeling monthly insolation data** [11495-24]
- 11495 0S **Solar concentration, solar resource utilization, and sustainability** [11495-26]
- 11495 0T **External compound parabolic concentrator (XCPC) for decarbonizing industrial processing heat** [11495-27]
