

PROCEEDINGS OF SPIE

International Conference on Pure, Applied, and Computational Mathematics (PACM 2023)

**Zhen Wang
Dunhui Xiao**
Editors

**6–8 January 2023
Suzhou, China**

Organized by
University of Almeria (Spain)

Sponsored by
AEIC Academic Exchange Information Centre (China)

Published by
SPIE

Volume 12725

Proceedings of SPIE 0277-786X, V. 12725

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Conference on Pure, Applied, and Computational Mathematics (PACM 2023),
edited by Zhen Wang, Dunhui Xiao, Proc. of SPIE Vol. 12725, 1272501
© 2023 SPIE · 0277-786X · doi: 10.1117/12.2690414

Proc. of SPIE Vol. 12725 1272501-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Pure, Applied, and Computational Mathematics (PACM 2023)*, edited by Zhen Wang, Dunhui Xiao, Proc. of SPIE 12725, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

PURE MATHEMATICS; AND PROBABILISTIC AND STATISTICAL ANALYSIS

- 12725 02 **Study on the correlation degree of chemical elements of glass based on grey theory** [12725-8]
- 12725 03 **Model of the evolution of opinion propagation under the effect of group pressure** [12725-2]
- 12725 04 **Analysis of urban contraction based on grey correlation and entropy weight models** [12725-11]
- 12725 05 **Identification and trend analysis of urban shrinkage in Liaoning province based on grey theory** [12725-12]
- 12725 06 **Forest management decision based on carbon sequestration and multi-index evaluation model** [12725-49]
- 12725 07 **Curvature estimation of the level sets of solutions of a class of elliptic partial differential equation** [12725-20]
- 12725 08 **The research about elementary education teaching based on polynomial theory and aliquot theorem** [12725-47]
- 12725 09 **Comparison of two causal inference methods: linear regression and matching score and introduction of causal forest** [12725-45]
- 12725 0A **A linear programming model for transportation planning in the arbitrary truck load strategy to supply products with unbalanced demand** [12725-53]
- 12725 0B **A metric structure of statistical manifolds based on optimal transportation theory** [12725-27]
- 12725 0C **Uniqueness result for fractional Kirchhoff-type problems with singular nonlinearity** [12725-15]
- 12725 0D **A uniqueness positive solutions for strong singular Kirchhoff-type fractional Laplacian problems with Hardy term** [12725-50]
- 12725 0E **The integral along curves by residue theorem** [12725-30]
- 12725 0F **Research on urban shrinkage based on entropy weight TOPSIS-grey correlation analysis method** [12725-16]
- 12725 0G **Research on intelligent traffic risk assessment method based on grey clustering** [12725-17]

APPLIED MATHEMATICS AND FINANCIAL DATA MODELING

- 12725 OH **Study on application of game theory to interception guidance** [12725-21]
- 12725 OI **Mathematics model and traditional cultural interest's analysis and solution** [12725-29]
- 12725 OJ **Research on green port based on LDA model and CiteSpace bibliometric analysis** [12725-25]
- 12725 OK **Analysis on the evolution path of Chinese subjective attitude a prediction model based on structural equation** [12725-37]
- 12725 OL **Application of mathematical expression-based recommendation models in user behaviour modelling** [12725-18]
- 12725 OM **Growth rate of a pendulum with a time-varying length** [12725-40]
- 12725 ON **Gröbner bases method for solving N-path in finite graph and its application** [12725-35]
- 12725 OO **Levitin-Polyak well-posedness for systems of time-dependent variational-hemivariational inequalities** [12725-39]
- 12725 OP **Convergence rate of the second order inertia augmented Lagrangian dynamical system for convex optimization problem** [12725-32]
- 12725 OQ **Wavelet estimation of the geographically and temporally weighted variable coefficient regression model** [12725-41]
- 12725 OR **Prediction of missing values of chemical elements in glass relics and subclassification based on neural network** [12725-14]
- 12725 OS **Solutions to small datasets in defects detection based on Markov chain Monte Carlo simulations** [12725-33]
- 12725 OT **A study on the change-point of the mean of panel data based on the two-parameter CUSUM estimator** [12725-42]
- 12725 OU **Investigation of telescopic boom with single cylinder and pinning system for truck crane** [12725-44]
- 12725 OV **Research on reliability model of relay protection device based on GM-SVR** [12725-23]

COMPUTATIONAL MATHEMATICS AND ADVANCED ALGORITHM APPLICATION

- 12725 OW **The formation analysis of Nash equilibriums in bi-matrix game generated by propositional formulas** [12725-24]
- 12725 OX **Global existence and wave breaking for the modified Camassa-Holm-Novikov equation with an additional weakly dissipative term** [12725-19]

- 12725 0Y **Research on the influence factors of emergency logistics guarantee effectiveness based on hierarchical analysis method and fuzzy comprehensive judgment method** [12725-4]
- 12725 0Z **Mixed rationality model of route guidance based on evolutionary game** [12725-48]
- 12725 10 **Hopf bifurcation of a prey-predator system with two delays and selective harvesting** [12725-51]
- 12725 11 **Design of fuzzy neural network based on matrix semi-tensor product** [12725-34]
- 12725 12 **Generalization of Steinhaus conjecture** [12725-7]
- 12725 13 **Tail multi-parameter optimization of Ahmed model based on response surface method** [12725-22]
- 12725 14 **Research on glass relics based on neural network and K-means clustering algorithm** [12725-13]
- 12725 15 **Periodic solution of a periodic prey-predator model with variable carrying capacity** [12725-10]
- 12725 16 **Mathematic models of hydrodynamic microswimmer in low Reynold environment** [12725-28]
- 12725 17 **Estimation of parameters for two-stage mixed fuzzy linear regression models** [12725-31]
- 12725 18 **Application of LSTM intelligent algorithm in shale gas development** [12725-36]
- 12725 19 **A survey of global conformal parameterization** [12725-52]
- 12725 1A **Research on the muddy children puzzle problem** [12725-56]
- 12725 1B **Analysis of smoking transmission based on the SIR** [12725-9]

Conference Committee

Conference General Chair

Hari Mohan Srivastava, University of Victoria (Canada)

Program Committees

Nikola Ivković, University of Zagreb (Croatia)
Francesco Zirilli, Università di Roma La Sapienza (Italy)
Luisa Maria Arvide Cambra, Universidad de Almería (Spain)
Xinyao Yang, Xi'an Jiaotong Liverpool University (China)
Alberto Cabada, CITMAga (Spain)
Carlos Guardado da Silva, Alameda da Universidade (Portugal)
Tapio Ala-Nissila, Loughborough University (United Kingdom)
Mehmet Onur Fen, TED University (Turkey)
Kai Liu, the University of Liverpool (United Kingdom)
Paulo Batista, Universidade de Évora (Portugal)
Luís Corujo, Universidade de Lisboa (Portugal)
Gisela Gabriel, Municipal Archives of Cascaís (Portugal)
João Miguel Henriques, NOVA FCSH (Portugal)

Technical Program Committees

Ng Zhen Chuan, Universiti Sains Malaysia (Malaysia)
Srinivasarao Thota, SR University (India)
Hong-Ming Yin, Washington State University (United States)
Ang Miin Huey, Universiti Sains Malaysia (Malaysia)
Nikola Ivković, University of Zagreb (Croatia)
Jorge Revez, Universidade de Lisboa (Portugal)
Luísa Alvim, Universidade de Évora (Portugal)
Dejan Miljenović, University of Rijeka (Croatia)
Muharrem Tuncay Gençoğlu, Firat University (Turkey)
Dunhui Xiao, Tongji University (China)
Zhen Wang, Dalian University of Technology (China)
