

PROCEEDINGS OF SPIE

***Ninth International Conference
on Electromechanical Control
Technology and Transportation
(ICECTT 2024)***

**Jinsong Wu
Azanizawati Ma'aram**
Editors

**24–26 May 2024
Guilin, China**

Organized by
Guilin University of Electronic Technology (China)

Sponsored by
Nanning University (China)
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13251

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13251

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Ninth International Conference on Electromechanical Control Technology and Transportation (ICECTT 2024),
edited by Jinsong Wu, Azanizawati Ma'aram, Proc. of SPIE Vol. 13251, 1325101
© 2024 SPIE · 0277-786X · doi: 10.1117/12.3047678

Proc. of SPIE Vol. 13251 1325101-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Ninth International Conference on Electromechanical Control Technology and Transportation (ICECTT 2024)*, edited by Jinsong Wu, Azanizawati Ma'aram, Proc. of SPIE 13251, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xv *Conference Committee*

Part One

INTELLIGENT MECHANICAL DESIGN AND STRUCTURAL OPTIMIZATION

- 13251 02 **Design and simulation analysis of diaphragm pressure sensor** [13251-208]
- 13251 03 **Gearbox design study by Monte Carlo method of tractor and double trailer combination based on co-simulation platform** [13251-194]
- 13251 04 **A novel structure for radial hybrid magnetic bearing based on flux extrusion effect** [13251-210]
- 13251 05 **Research on intelligent installation tool for R-pins in live work based on wireless communication** [13251-118]
- 13251 06 **Design and fault diagnosis technology research of integrated intelligent high voltage switchgear** [13251-284]
- 13251 07 **Research on control technology of construction allowance for deep-sea submarine optical cable laying** [13251-164]
- 13251 08 **Development and performance analysis of lined insulation pipes** [13251-35]
- 13251 09 **Multiobjective optimization design of lifting performance structure of scissor lifting aerial work vehicle based on fuzzy nearness degree method** [13251-20]
- 13251 0A **Intelligent temperature measurement nut device based on electric field energy extraction** [13251-143]
- 13251 0B **Balance research of the T21 commissioning assembly line based on flexsim simulation** [13251-54]
- 13251 0C **First-order idle vibration of SUVs and optimization** [13251-98]
- 13251 0D **Design and analysis of A-frame structure for laying 50t submarine cable** [13251-216]
- 13251 0E **Optimization design and implementation of a novel dual-channel triangular planar capacitive sensor** [13251-67]
- 13251 0F **Trap resistance triggers SCR with low capacitance** [13251-182]
- 13251 0G **Design and implementation of LED driver circuit applied to fluorescent optical fiber temperature sensor** [13251-241]
- 13251 0H **Traffic network design model with trip production-attraction and supply uncertainty** [13251-22]

- 13251 0I **Research progress on giant magneto resistive sensors based on spin-valve structure** [13251-34]
- 13251 0J **Research and application of PID constant pressure water supply for washing machine water efficiency detection equipment based on Siemens PLC** [13251-57]
- 13251 0K **Design of charge injection electrode and evaluation of oil purification effect of balanced charge oil purification device** [13251-280]
- 13251 0L **Structural changes investigation based on LVTSCR with deep n-type well** [13251-199]
- 13251 0M **Structural design and simulation study of heavy duty AGV frames** [13251-246]
- 13251 0N **Structure research of noise muffler for exhaust valve of space station** [13251-189]
- 13251 0O **Design of servo driver for industrial robots based on TMS320F28335** [13251-18]
- 13251 0P **Design and implementation of experiments on small civilian UAVs in low pressure environments** [13251-223]
- 13251 0Q **Design and research of special work equipment for narrow space in substation** [13251-248]
- 13251 0R **Design and key technology research of intelligent meeting record system for railway scenarios** [13251-240]
- 13251 0S **Lightweight design of center turntable of tower stereo garage based on differential evolutionary algorithm** [13251-50]
- 13251 0T **Method for judging the attitude of scissor type isolation switch** [13251-129]
- 13251 0U **Structural optimization design and dynamic characteristics analysis of heavy-duty robots** [13251-141]
- 13251 0V **Design and performance verification of fabricated pre-tunnel shading structure in road tunnels** [13251-2]
- 13251 0W **Research on high-temperature and high-sensitivity indium tin oxide pressure sensor** [13251-205]
- 13251 0X **Design and experimental verification OTA system architecture based on ECE-R156** [13251-31]
- 13251 0Y **Optimization design of flow field in shelter based on CFD calculation** [13251-12]
- 13251 0Z **Design of a data acquisition board based on CPCI bus** [13251-148]
- 13251 10 **Research on the design of subway vehicle track detection device and its structural fatigue strength** [13251-174]
- 13251 11 **Research on fuzzy PID optimization control for continuous casting crystallizer liquid level based on BP neural network** [13251-160]
- 13251 12 **Development of a sound absorption and insulation device for transformer noise control** [13251-200]
- 13251 13 **Design of the unmanned vehicle steer-by-wire sensor fault-tolerant control experimental platform** [13251-285]

- 13251 14 **Design of somatosensory controlled vehicle** [13251-26]
- 13251 15 **An improved genetic algorithm approach to flexible job shop scheduling** [13251-80]
- 13251 16 **Research on parallel multiple bidirectional converters with power quality control function**
[13251-239]
- 13251 17 **Multiproperties and multiobjective collaborative optimization design of a SUV hood**
[13251-180]
- 13251 18 **Design and research of face recognition intelligent charging cabinet based on deep learning**
[13251-169]

ELECTROMECHANICAL EQUIPMENT CHARACTERISTICS RESEARCH AND RISK ASSESSMENT

- 13251 19 **Cross-sectional comparative study of hybrid arc-abatement schemes** [13251-270]
- 13251 1A **Estimation of aerodynamic parameters for a certain type of unmanned aerial vehicle**
[13251-60]
- 13251 1B **Application of deep learning for prediction of remaining useful life of li-ion batteries** [13251-263]
- 13251 1C **Analysis of the vibration characteristics of helical gear pairs with cracking faults** [13251-179]
- 13251 1D **Risk assessment of transmission lines under complex environmental impacts** [13251-140]
- 13251 1E **Simulation study on the influence of gas ducting on the performance of two-pass microchannel evaporator** [13251-27]
- 13251 1F **AE-KSVD model for performance degradation assessment of high-speed train gearbox bearings** [13251-135]
- 13251 1G **Evaluation of ship navigation safety in bridge group water based on extension cloud**
[13251-226]
- 13251 1H **Risk analysis for fire and explosion accidents on chemical tanker under fuzzy-AHP approach**
[13251-74]
- 13251 1I **Application of laser vibration meter in vibration monitoring of marine equipment** [13251-62]
- 13251 1J **Fuxing train set air conditioning unit common failure analysis** [13251-230]
- 13251 1K **Time-optimal trajectory planning for robotic arms based on enhanced particle swarm optimization algorithm** [13251-190]
- 13251 1L **Research on self-test abnormalities and improvement techniques for discrete integrated chips**
[13251-112]
- 13251 1M **Hydraulic simulation of the support legs of compact crane for substation based on AMESim**
[13251-46]
- 13251 1N **265 diesel engine piston slap noise analysis** [13251-90]

- 13251 1O **Detection of abnormal vibration in multiworking condition bearings based on variational autoencoder** [13251-242]
- 13251 1P **The invention relates to a pollution monitoring technology for insulator of substation equipment based on optical sensor technology** [13251-278]
- 13251 1Q **Force analysis of towbarless aircraft tractor's clamping and lifting mechanism based on Adams simulation** [13251-40]
- 13251 1R **Study on the influence of heavy train speed on the characteristics of wind flow field at tunnel entrance** [13251-171]
- 13251 1S **Health status evaluation of gas driven compressor units based on GA-BP** [13251-95]
- 13251 1T **Complex network-based analysis of regional vessel navigation risk** [13251-100]
- 13251 1U **A system dynamics-based risk assessment model for shipping in ice regions** [13251-209]
- 13251 1V **A testing method for safety of the intended functionality performance and reliability with high coverage scenarios based on multilevel element simulation system** [13251-236]
- 13251 1W **Research on cooperative lane-changing guidance method for expressway mainline in V2X environment** [13251-123]
- 13251 1X **Contact load measurement of bearings based on smart roller** [13251-153]
- 13251 1Y **Performance test method for regenerative braking system of electric motorcycles and influencing factors** [13251-252]
- 13251 1Z **Effect of wind loads with different time-domain characteristics on the safety of high-speed trains** [13251-96]
- 13251 20 **Research on risk of extrusion and collision based on ship hull collision simulation model** [13251-105]
- 13251 21 **Research on vehicle mandatory lane change decision model based on trajectory analysis** [13251-222]
- 13251 22 **Exploration of digital maintenance for highway electromechanical equipment based on digital twin** [13251-136]
- 13251 23 **Aerodynamic parameter identification method of unmanned aerial vehicles (UAVs)** [13251-115]
- 13251 24 **Comparative analysis of different finite element models of single box and multichamber special-shaped PC box girder** [13251-43]
- 13251 25 **A study of vibration in high altitude slap picking operations** [13251-93]
- 13251 26 **Study on the thermal runaway test method for power batteries of electric bicycles and fire characteristics** [13251-275]
- 13251 27 **Simulation of cooling water channel flow characteristics of motorcycle tricycle diesel engine** [13251-97]
- 13251 28 **Development of vehicle forward diagnosis based on testability theory** [13251-254]

- 13251 29 **Research on fault Q&A system for train-controlled on-board equipment based on knowledge graph** [13251-170]
- 13251 2A **Improving vibration characteristics of electronic water pump with harmonic voltage compensation method** [13251-23]
- 13251 2B **Synchronized position control of the lifting double cylinders of the segment erector under unbalanced load** [13251-119]
- 13251 2C **Characteristics analysis and improvement measures of lithium-ion power batteries for pure electric vehicles in coal mines** [13251-214]
- 13251 2D **Fault detection system for stepping motors based on K-means clustering** [13251-14]
- 13251 2E **Vehicle anti-occupancy detection device** [13251-283]

MECHATRONICS AND INTELLIGENT CONTROL SYSTEM

- 13251 2F **Design of mechanical control system for electrical automation based on mechatronics** [13251-158]
- 13251 2G **Automatic location method for high-risk area of ice dance disaster on 220kV high voltage transmission line** [13251-139]
- 13251 2H **Multiobjective scheduling method for pumped storage power plants considering the volatility of renewable energy** [13251-150]
- 13251 2I **Power plant risk management optimization based on NSGA-II** [13251-264]
- 13251 2J **Multiobjective optimization of high type control system with LuGre friction compensation in optical-electric tracking system** [13251-244]
- 13251 2K **Multi-aircraft gaming confrontation methods with different roles** [13251-215]
- 13251 2L **Research on the inversion method of nuclear magnetic logging data based on improved singular value decomposition method** [13251-109]
- 13251 2M **Design of intelligent optimization system for transmission lines based on BP neural network** [13251-7]
- 13251 2N **Automatic landing control system for large passenger aircraft under artificial intelligence** [13251-206]
- 13251 2O **Swarm UAV scene simulation based on differential flatness and swarm intelligence** [13251-16]
- 13251 2P **Robust zero-watermarking for semistructured power data tracking** [13251-56]
- 13251 2Q **Research on improved adaptive sliding mode position control for translation mechanism servo system** [13251-9]
- 13251 2R **Design of wireless charging system for electric mopeds based on multichannel concurrency and multichannel reception** [13251-156]

- 13251 2S **A simulation study of resilience strategies for agricultural supply chain under disruption** [13251-157]
- 13251 2T **Engine-start control strategies for mode switching process of a parallel hybrid power system** [13251-36]
- 13251 2U **An efficient testing route planning method for automatic driving system on public roads based on testing requirements** [13251-229]
- 13251 2V **Line segments-based method for inertia resistance calculation of automotive latch systems** [13251-220]
- 13251 2W **Adaptive fuzzy output tracking control of robot manipulators with unknown input saturations** [13251-110]
- 13251 2X **Estimation of PMSM rotor position and speed based on switched-hall sensors** [13251-168]
- 13251 2Y **Research on online accurate detection method for transformer energy efficiency** [13251-138]
- 13251 2Z **The study on the construction and application of a whole lifecycle management and control platform for nonwoven products** [13251-198]
- 13251 30 **Research on railway artificial intelligence competition evaluation system based on AHP-entropy weight-TOPSIS** [13251-76]
- 13251 31 **Analysis of the heating cause of a 110 kV high-voltage cable terminal caused by defects installation process and grounding system** [13251-120]
- 13251 32 **Analysis of mixed constellation satellite networking technology in the electric power industry** [13251-269]
- 13251 33 **Power operation scene drop alarm method considering local block long-distance dependence** [13251-48]
- 13251 34 **Mathematical modeling and experimental investigation of dynamic track stabiliser vehicle-track coupling system** [13251-165]
- 13251 35 **Research on airport runway-taxiway system controlling optimization based on scheduling algorithm** [13251-203]
- 13251 36 **Wireless sensing of GIS isolation switch contact temperature** [13251-196]
- 13251 37 **DC-DC-based active battery balancing system for new energy vehicles** [13251-33]
- 13251 38 **Transient temperature field analysis of disc brake braking process** [13251-49]
- 13251 39 **Research on the dual wheel lateral force coefficient testing system** [13251-256]
- 13251 3A **Research on evaluation and optimal selection of transmission line mechanized construction scheme based on data mining** [13251-267]
- 13251 3B **Constructing key indicator system for smart electric vehicle cyber-physical system: exploration and application of network analytic hierarchy method** [13251-147]

Part Two

- 13251 3C **A stochastic planning method for energy storage capacity in distribution networks based on source load interaction** [13251-161]
- 13251 3D **Simulation analysis of intelligent anti-tremor spoon control system based on BP-PID** [13251-192]
- 13251 3E **Construction of vehicle frontal 18° oblique impact platform and analysis of driver injury** [13251-172]
- 13251 3F **Research and testing of disturbance suppression strategies for fast charging systems** [13251-87]
- 13251 3G **Design study of autonomous navigation and control system for surface unmanned boats** [13251-173]
- 13251 3H **Research of self-calibration of position and attitude monitoring system for large front shovel excavator** [13251-274]
- 13251 3I **Research on open-loop control system of three-axis mobile platform** [13251-117]
- 13251 3J **Radioisotope thermoelectric power generation** [13251-134]
- 13251 3K **Dynamic adjustment algorithm of orderly charging power of electric vehicle cluster under double constraints of variable capacity and user demand** [13251-175]
- 13251 3L **Reliability testing and evaluation method of highway tunnel video event detection system** [13251-124]
- 13251 3M **Research on site selection technology of drone airports for overhead distribution lines based on an improved particle swarm optimization algorithm** [13251-122]
- 13251 3N **Low voltage charging technology of 800V battery for V2G electric vehicle** [13251-102]
- 13251 3O **Research on UWB-based intelligent monitoring system for non-stop construction** [13251-227]
- 13251 3P **Simulation analysis of electric vehicle power system based on cruise** [13251-78]
- 13251 3Q **Blockchain-based distributed consensus system architecture for cooperative vehicle-infrastructure sensing** [13251-221]

TRAFFIC CONTROL AND TRANSPORTATION PATH PLANNING

- 13251 3R **An intelligent car with automatic patrol** [13251-184]
- 13251 3S **Flight trajectory optimization based on natural algorithm** [13251-86]
- 13251 3T **Studying the use of sliding mode control to track the course of an autonomous vehicle** [13251-89]
- 13251 3U **Optimization of path selection of multimodal transportation with cold chain under low-carbon and time-window situations** [13251-41]

- 13251 3V **Optimization of front warehouse location routing problem with multiple delivery modes** [13251-245]
- 13251 3W **Research on the application of ant colony algorithm in optimal path planning according to the concept of intelligent transportation** [13251-243]
- 13251 3X **Computerized logistics and ERP system in air freight transport: a multitype crew scheduling optimization model by considering human resource constraints** [13251-3]
- 13251 3Y **Optimization of cold chain logistics distribution path for customer classification based on combination empowerment** [13251-276]
- 13251 3Z **Research on airport elevator vehicle scheduling problem considering separation of people and vehicles** [13251-59]
- 13251 40 **Risk analysis of liquefied cargo shipping based on fuzzy accident tree** [13251-70]
- 13251 41 **A review of robot path planning algorithms** [13251-38]
- 13251 42 **Research on joint delivery path planning and task allocation of drones and trucks** [13251-91]
- 13251 43 **Research on multitrip vehicle routing problem with soft time window based on ALNS algorithm** [13251-25]
- 13251 44 **Research on lateral fully-actuated semiactive control of high-speed train with built-in bogies** [13251-265]
- 13251 45 **Optimization of multi-OD shortest path model algorithm based on common computing** [13251-83]
- 13251 46 **Research on port autonomous driving hybrid traffic scheduling method based on adaptive right of way management** [13251-65]
- 13251 47 **Optimization of ship scheduling in port based on NSGA-II algorithm** [13251-155]
- 13251 48 **Research on the planning and optimization methods of aircraft taxiing path on the surface: current status, challenges, and future directions** [13251-77]
- 13251 49 **Analysis of factors influencing the acceptance of L4-level autonomous buses based on structural equation model** [13251-127]
- 13251 4A **Research on feedback linearization sliding mode control based on vehicle platoon** [13251-146]
- 13251 4B **Research on aircraft surface taxiing path optimization based on A* algorithm** [13251-177]
- 13251 4C **Willingness discrimination method for road traffic accidents based on data reorganization coding and machine learning** [13251-130]
- 13251 4D **Energy-saving timetable and speed profile optimization for urban rail transit: taking Jinan metro line 2 as an example** [13251-217]
- 13251 4E **A study on the effect of community opening on road traffic capacity** [13251-104]
- 13251 4F **Unmanned vehicle path planning based on improved RRTStar** [13251-128]

- 13251 4G **Research on intelligent suspension control strategy integrating driver intent and simulation** [13251-201]
- 13251 4H **Research on merging behavior of pedestrians based on improved social force model** [13251-21]
- 13251 4I **Research on health management of rail transit traction system based on big data** [13251-113]
- 13251 4J **Traffic volume-based optimization of highway tunnel lighting brightness** [13251-154]
- 13251 4K **Optimization method of mine waste transportation path in green and low carbon context based on improved particle swarm algorithm** [13251-53]
- 13251 4L **Research on evaluation of highway reconstruction and expansion traffic organization plan** [13251-181]
- 13251 4M **Variable gain PI control for electric vehicle ramp start under load torque compensation** [13251-166]
- 13251 4N **Fixed-time fault-tolerant control of electric multiple unit based on fuzzy adaptive** [13251-103]
- 13251 4O **An improved autopilot trajectory planning model** [13251-116]
- 13251 4P **Path optimization of emergency material distribution vehicles based on hybrid plant growth simulation algorithm** [13251-133]
- 13251 4Q **Research on vehicle routing problem based on hybrid immune algorithm** [13251-66]
- 13251 4R **Semantic map-based pedestrian trajectory prediction model for intelligent wheelchairs with an improved hybrid LSTM** [13251-151]
- 13251 4S **Path planning of unmanned surface vehicle based on improved A* algorithm** [13251-85]
- 13251 4T **Research on precise control of hydraulic truck path navigation** [13251-52]
- 13251 4U **Logistics distribution and inspection of unmanned vehicles based on improved YOLOv5** [13251-178]
- 13251 4V **Cooperative control framework for CAVs at a highway merging area based on MPPI** [13251-249]
- 13251 4W **Research on the accessibility of traffic road network in the main urban area of Linyi City based on GIS** [13251-125]
- 13251 4X **Multiresource scheduling optimization for tractor and trailer transportation with changing carrying capacity in network** [13251-251]
- 13251 4Y **Optimization of periodic interval stop-skip operation for urban rapid rail transition considering tidal overcrowded** [13251-47]
- 13251 4Z **Four-way shuttle path planning strategy with improved A* algorithm** [13251-30]
- 13251 50 **Study on long-distance vacuum transportation of powder and glue** [13251-231]

- 13251 51 **Evaluation of pedestrian detection and tracking algorithms in transportation hubs** [13251-79]
- 13251 52 **A study of multimodal travel behavior of shared transportation under finite rationality** [13251-92]
- 13251 53 **Route planning for obstacle avoidance of UAM aircraft based on runtime assurance and APF** [13251-176]
- 13251 54 **Research on the vulnerability of manufacturing workshop logistics system based on complex network theory** [13251-45]
- 13251 55 **Application of artificial intelligence technology in waterway transportation: a bibliometric investigation** [13251-207]
- 13251 56 **Research on optimal control of active suspension for intelligent vehicles based on simulink** [13251-75]

INTELLIGENT TRANSPORTATION SCHEDULING AND DATA ANALYSIS

- 13251 57 **Spatio-temporal traffic data prediction based on stacking multiple regression models** [13251-202]
- 13251 58 **Research on the accuracy analysis method of intelligent driving simulation test data** [13251-272]
- 13251 59 **Study on traffic conflict characteristics of tunnel-interchange exit spacing limited road sections based on real vehicle tracks** [13251-69]
- 13251 5A **Comprehensive management of rural highways based on digital transformation** [13251-255]
- 13251 5B **Research on electric vehicle interaction strategy between electric selling company and electric vehicle based on evolutionary game** [13251-5]
- 13251 5C **A review of wireless charging technology for electric vehicles** [13251-107]
- 13251 5D **Research on port integration development based on coupling coordination degree model** [13251-19]
- 13251 5E **Construction method of scenario library based on dual-pillar data source of vehicle and road** [13251-232]
- 13251 5F **A method of lane alignment restoration based on resnet network with fan-grid data characteristics** [13251-51]
- 13251 5G **A distributionally robust optimization method for the coordination of train and passenger flows in regional rail transit system considering train skip-stop strategy** [13251-8]
- 13251 5H **Research on the operation optimization and benefit calculation of pumped-storage power station** [13251-4]
- 13251 5I **Robust shortest path problem based on multidirectional link travel time** [13251-17]
- 13251 5J **Dual-objective optimization of taxi dispatching in simulated road network based on reinforcement learning** [13251-224]

- 13251 5K **Spatial-temporal bottleneck attention transformer networks for traffic flow forecasting** [13251-271]
- 13251 5L **Collectively satisfactory urban rail transit dispatching optimization** [13251-191]
- 13251 5M **Construction of spatial-temporal portrait database of passenger flow in urban rail transit station based on data drive** [13251-68]
- 13251 5N **High speed train tracking observation based on sliding mode controller** [13251-44]
- 13251 5O **Highway interchange section state discrimination method based on improved fuzzy C-means clustering algorithm** [13251-73]
- 13251 5P **Variable speed limit control of freeway based on sliding mode reaching law** [13251-94]
- 13251 5Q **Complex network-based analysis of critical defects in flag state control** [13251-58]
- 13251 5R **Evaluation of coordinated development of transport and population-industry based on passenger transportation network using mobile signaling data** [13251-279]
- 13251 5S **Research on scenario-based trustworthiness evaluation method of autonomous vehicles** [13251-163]
- 13251 5T **Multiobjective optimization of the swing frame of a belt conveyor based on workbench** [13251-37]
- 13251 5U **Knowledge modeling and intelligent analysis of road traffic accidents** [13251-106]
- 13251 5V **Topological characteristics and community identification of container liner route network** [13251-238]
- 13251 5W **Identification of urban taxi passenger hotspots based on massive trajectory data** [13251-186]
- 13251 5X **Mining urban taxi operation characteristics based on spatio-temporal trajectory data** [13251-187]
- 13251 5Y **Research on intelligent vision technology for UAVs in armed police patrol scenes** [13251-114]
- 13251 5Z **Research on dynamic ship domain model and simulation** [13251-42]
- 13251 60 **Mining of rail transit contact network fault association rules** [13251-235]
- 13251 61 **Automatic guided vehicle scheduling optimization of automated container terminal considering battery swapping and conflict-free factors** [13251-247]
- 13251 62 **Application of DDPG algorithm with fused experience pool for autonomous driving** [13251-281]
- 13251 63 **Method for identifying and alerting to operational risks of en-route vehicles on arterial road** [13251-234]
- 13251 64 **Research on active collision avoidance strategy of autonomous vehicles based on risk assessment** [13251-63]
- 13251 65 **Multimodal target detection algorithm based on adaptive feature fusion** [13251-13]

- 13251 66 **Flight schedule adjustment based on column generation algorithm** [13251-84]
- 13251 67 **A rapid detection method for NLOS signals based on the vehicle mounted camera** [13251-82]
- 13251 68 **Departure timetable optimization based on NSGA-II** [13251-61]
- 13251 69 **Improved MPC energy management for series hybrid electric vehicles based on dynamic equivalent fuel consumption** [13251-149]
- 13251 6A **Traffic flow prediction based on dynamic spatial enhancement** [13251-213]
- 13251 6B **Research on collision simulation analysis of vehicle power battery based on LS-DYNA** [13251-81]
- 13251 6C **Analysis of driver response based on natural sensors and driving dataset** [13251-250]
- 13251 6D **Research on multivessel collision avoidance decision based on improved artificial potential field algorithm** [13251-253]
- 13251 6E **Research on a road marking line extraction and automatic classification algorithm** [13251-225]
- 13251 6F **Research on road crack detection method based on UAV images** [13251-193]
- 13251 6G **Performance evaluation of multisource data detection system for highway tunnel traffic incidents** [13251-218]
- 13251 6H **Analysis of passenger flow characteristics of Dongguan rail transit line 2** [13251-185]
- 13251 6I **Research on dynamic parking space allocation for temporary reservation users** [13251-137]
- 13251 6J **Research on brake force distribution based on parallel braking control strategy** [13251-6]
- 13251 6K **A hybrid obstacle avoidance algorithm for autonomous driving based on artificial potential energy field and fuzzy control** [13251-39]
- 13251 6L **Research on time control points selection of bus timetable based on weighted k-means** [13251-32]
- 13251 6M **Characterization of highway traffic flow under the influence of non-predictive events** [13251-212]
- 13251 6N **Study on influencing factors of thermal imaging camera captures truck brake temperatures** [13251-10]
- 13251 6O **Application of big data in intelligent transportation system to optimize traffic flow** [13251-260]

Conference Committee

Conference Chairs

Tao Wang, Guilin University of Electronic Technology (China)
Hui Liu, Central South University (China)

Technical Program Committee Chairs

Changxi Ma, Lanzhou Jiaotong University (China)
Hui Jing, Guilin University of Electronic Technology (China)
Xiaofang Yuan, Hunan University (China)

Technical Program Committee Members

Hamid Bentarzi, University of M'hamed Bougara Boumerdes (Algeria)
Hui Wang, Zhengzhou University of Light Industry (China)
Shaojiang Dong, Chongqing Jiaotong University (China)
Yongkang Xing, Chongqing University (China)
Shaohua Luo, Guizhou University (China)
Qiang Wang, Heilongjiang Institute of Technology (China)
Junxing Zhang, Guizhou University (China)
Dan Zhou, Guilin University of Electronic Technology (China)
Chandra Singh, Sahyadri College of Engineering and Management
(India)
Yiming Liu, Stevens Institute of Technology (United States)
Norikhwan Hamzah, Universiti Teknologi Malaysia (Malaysia)
Mohd Khairul Afzan Bin Mohd Lazi, Universiti Teknologi Malaysia
(Malaysia)
Mohd Syahril Ramadhan Mohd Saufi, Universiti Teknologi Malaysia
(Malaysia)
Nurizaty Binti Zuhan, Universiti Teknologi MARA (Malaysia)
Muhammad Faiz Hilmi Rani, Universiti Teknologi Malaysia (Malaysia)
Balqis Binti Mohd Yunus, Universiti Teknologi MARA (Malaysia)
Nur Safwati Mohd Nor, Universiti Teknologi MARA (Malaysia)

Organizing Committee Chairs

Wenyong Li, Guilin University of Electronic Technology (China)
Law Teik Hua, University Putra Malaysia (Malaysia)
William Chong Woei Fong, Universiti Teknologi Malaysia (Malaysia)

Organizing Committee Members

Yi Fan, Nanning University (China)

Qi Xu, Guilin University of Electronic Technology (China)
Yu Liu, Northeast Electric Power University (China)
Ke Zhang, Wuhan University of Technology (China)
Boran Yang, Chongqing University of Technology (China)
Li Liu, Guangxi University (China)
Norbaya Hj. Sidek, Universiti Teknologi MARA (Malaysia)
Saiful Anuar Abu Bakar, Universiti Teknologi Malaysia (Malaysia)
Nur Izwanne Mahyon, Universiti Teknologi MARA (Malaysia)
Mohd Haziq Dzulkifli, Universiti Teknologi Malaysia (Malaysia)

Publication Chairs

Jinsong Wu, Guilin University of Electronic Technology (China) and
University of Chile (Chile)
Fengming Du, Dalian Maritime University (China)
Azanizawati Ma'aram, Universiti Teknologi Malaysia (Malaysia)
