PROCEEDINGS OF SPIE

International Conference on Cloud Computing and Communication Engineering (CCCE 2024)

Yang Yue
Huanlai Xing
Editors

14–16 June 2024
Nanjing, China

Organized by
Nanjing University (China)

Sponsored by
AEIC Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13441

Proceedings of SPIE 0277-786X, V. 13441

International Conference on Cloud Computing and Communication Engineering (CCCE 2024), edited by Yang Yue, Huanlai Xing, Proc. of SPIE Vol. 13441, 1344101 · © 2024 SPIE
0277-786X · doi: 10.1117/12.3057756

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Cloud Computing and Communication Engineering (CCCE 2024)*, edited by Yang Yue, Huanlai Xing, Proc. of SPIE 13441, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committees*

DIGITAL MODELING AND ALGORITHMIC MODELING

13441 02 **BookGCN: a book classification model based on text attributes and link relationships** [13441-37]

13441 03 **Modeling method for simulation scene oriented to intelligent capability test of unmanned aerial vehicles** [13441-5]

13441 04 **Modeling and code generation for intelligent workshop production logistics based on MBSE** [13441-4]

13441 05 **Multimodal information fusion of manufacturing digital industrial scene based on federated learning optimization algorithm** [13441-35]

13441 06 **Modeling and simulation of RS and CCSK joint encoding and modulation based on Simulink** [13441-36]

13441 07 **Research on sparse codebook multiple access technology based on generated adversarial network** [13441-9]

13441 08 **Imaging algorithm for high resolution spaceborne spotlight/sliding spotlight SAR** [13441-25]

13441 09 **Non-invasive in vitro HCT estimation by Monte Carlo modeling and simulation** [13441-10]

13441 0A **Research and optimization of feature extraction algorithms based on bearing vibration signals** [13441-8]

13441 0B **Deep learning-based direct sequence spread spectrum signal modulation mode recognition and parameter estimation algorithm** [13441-18]

13441 0C **YOLOv8-based small-target disinfection region detection model under complex indoor conditions** [13441-13]

13441 0D **Point cloud denoising algorithm on account of domain point space** [13441-14]

13441 0E **Crowd counting: an overview** [13441-3]

13441 0F **Distributed encrypted storage of large-scale atomic data for cloud computing** [13441-29]

13441 0G **A situation-driven multisatellite mission planning method based on genetic algorithm** [13441-34]

13441 0H **Design and simulation of parameter intensive shallow CNN acceleration method based on FPGA** [13441-24]

13441 0I **Research on satellite attitude stabilization motion control algorithm for redundant multimanipulator free floating space robot capturing non-cooperative target** [13441-26]

INTELLIGENT COMMUNICATION TECHNOLOGY AND SYSTEM DESIGN

13441 0J **Intelligent motion monitoring system based on multisource feature fusion** [13441-22]

13441 0K **Wideband CPW-fed circularly polarized elliptical slot antenna for UWB application** [13441-21]

13441 0L **A joint spatial-temporal coherent integration detection method for space-borne distributed radar system** [13441-15]

13441 0M **A generalized video synchronization technology for serial communication data interface** [13441-6]

13441 0N **Analysis of AMTI performance for GEO-LEO system bistatic radar** [13441-11]

13441 0O **Design of real-time simulation evaluation system based on network technology** [13441-31]

13441 0P **Research on terminal situational awareness model integrating user behavior portraits and graph matching** [13441-33]

13441 0Q **The design of an automatic control system for temperature, humidity, and illumination detection** [13441-12]

13441 0R **Research on anti-jamming technology of pseudo-code phase modulation fuse pulse based on CPOKF** [13441-17]

13441 0S **Design and application of 5G communication terminal for power systems** [13441-16]

13441 0T **A change detection method for multisource heterogeneous images using a refined hierarchical clustering approach** [13441-7]

13441 0U **Antenna pattern correction method for squint SAR mode** [13441-32]

13441 0V **A method of video reinforcement strapping quality detection based on deep neural network** [13441-27]

13441 0W **Research on security monitoring of distributed heterogeneous network environment based on microservice architecture** [13441-30]

13441 0X **Precise control method of resistance of memristor** [13441-23]

Conference Committees

Conference Chairs

Deyu Qi, Guangdong University of Foreign Studies (China)
Wanyang Dai, Nanjing University (China)

Technical Program Committee Chairs

Yang Yue, Xi'an Jiaotong University (China)
Ke-Lin Du, Concordia University (China)

Publication Chairs

Huanlai Xing, Southwest Jiaotong University (China)
Lei Chen, Shandong University (China)
Bin Jiang, Hunan University (China)
Xiao Wu, Southwest Jiaotong University (China)

Organizing Committee

Keyang Chen, Jiangsu University (China)
Xiaolin Xu, Nanjing University (China)
Yiren Dong, Nanjing University (China)
Honggang Chen, Sichuan University (China)
Qing Tian, Nanjing University of Information Science and Technology (China)
Bo Li, Northwestern Polytechnical University (China)
Peixian Zhuang, University of Science and Technology Being (China)
Fanlong Zhang, Nanjing Audit University (China)
Sandeep Saxena, Galgotias College of Engineering and Technology Greater Noida (India)
M.Vijayalakshmi, Thiagrajar College of Engineering (India)
Ding Chang, Guilin University of Electronic Technology (China)
Shuaiyong Li, Chongqing University of Posts and Telecommunications (China)
Hong Zhu, Oxford Brookes University (China)
Wan Nor Shuhadan Wan Nik, Universiti Sulatan Zainal Abidin (Malaysia)
Noreddine Gherabi, Sultan Moulay Slimane University (Morocco)

Technical Program Committee

Wenpu Geng, Nankai University (China)
Wenqian Zhao, Xi'an Jiaotong University (China)
Yingning Wang, University of Southern California (United States)
Yiwen Zhang, Nankai University (China)
Cheng-Yuan Ho, National Taiwan University, Taiwan (China)
Zhihan Lv, Qingdao University/Haier IoC Research Institute (China)
Chengyuan He, Asia University (China)
Wei Yue, Dalian Maritime University (China)
Marina Yusoff, Universiti Teknologi Malaysia (Malaysia)
Yingren Qian, National Ilan University (China)
Hong Zhu, Oxford Brookes University (China)
Priou, University Paris Nanterre (France)
Sahil Verma, Lovely Professional University (India)
Rajeev Tiwari, University of Petroleum and Energy Studies (India)
