

PROCEEDINGS OF SPIE

Optical Data Science: Trends Shaping the Future of Photonics

Bahram Jalali
Editor

30–31 January 2018
San Francisco, California, United States

Sponsored and Published by
SPIE

Volume 10551

Proceedings of SPIE 0277-786X, V. 10551

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Optical Data Science: Trends Shaping the Future of Photonics, edited by Bahram Jalali, Proc. of SPIE
Vol. 10551, 1055101 · © 2018 SPIE · CCC code: 0277-786X/18/\$18 · doi: 10.1117/12.2322766

Proc. of SPIE Vol. 10551 1055101-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Optical Data Science: Trends Shaping the Future of Photonics*, edited by Bahram Jalali, Proceedings of SPIE Vol. 10551 (SPIE, Bellingham, WA, 2018) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

DATACENTERS AND MOBILE COMPUTING

10551 02	Spectral efficiency in crosstalk-impaired multi-core fiber links [10551-1]
10551 03	Ultra high-definition video: convergence toward 100Gbps and beyond for digital A/V connectivity with fiber optics [10551-2]
10551 06	Low-latency optical parallel adder based on a binary decision diagram with wavelength division multiplexing scheme [10551-5]

EMERGING TECHNIQUES

10551 0K	Silicon photonics for neuromorphic information processing [10551-19]
10551 0L	Compact and cost-effective multi-channel optical spectrometer for fine FBG sensing in IoT technology [10551-20]
10551 0M	Application of laser speckle to randomized numerical linear algebra [10551-21]
10551 0N	Highly sensitive method of temperature sensing by using heterodyne detection [10551-22]

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

Connie J. Chang-Hasnain, University of California, Berkeley
(United States)

Graham T. Reed, Optoelectronics Research Centre, University of
Southampton (United Kingdom)

Symposium Co-Chairs

Jean Emmanuel Broquin, IMEP-LAHC (France)

Shibin Jiang, AdValue Photonics, Inc. (United States)

Program Track Chair

David L. Andrews, University of East Anglia (United Kingdom)

Conference Chair

Bahram Jalali, University of California, Los Angeles (United States)

Conference Co-Chairs

Ken-ichi Kitayama, The Graduate School for the Creation of New
Photonics Industries (Japan)

Ata Mahjoubfar, University of California, Los Angeles (United States)

Conference Program Committee

Mehdi Asghari, Mellanox Technologies, Inc. (United States)

Claire Lifan Chen, Lumentum (United States)

Shahab Etemad, Telcordia Technologies, Inc. (United States)

Yeshaiahu Fainman, University of California, San Diego (United States)

Cejo K. Lonappan, University of California, Los Angeles (United States)

Masaya Notomi, NTT Basic Research Laboratories (Japan)

Nasser N. Peyghambarian, College of Optical Sciences, The
University of Arizona (United States)

Paul R. Prucnal, Princeton University (United States)

Daniel R. Solli, University of California, Los Angeles (United States) and
Universität Göttingen (Germany)

Madhuri Suthar, University of California, Los Angeles (United States)

Naoya Wada, National Institute of Information and Communications
Technology (Japan)

Session Chairs

- 1 Datacenters and Mobile Computing
Cejo Konuparamban Lonappan, University of California, Los Angeles
(United States)
- 2 Artificial Intelligence
Madhuri Suthar, University of California, Los Angeles (United States)
- 3 Deep Learning Microscopy and Learning
Jacky C. K. Chan, University of California, Los Angeles (United States)
- 4 Emerging Techniques
Ken-ichi Kitayama, The Graduate School for the Creation of New
Photonics Industries (Japan)
